

Royal Ocean Cup 2014

National Team Racing in the Baltic

Inaugural event to be in Tuborg Harbor, Copenhagen August 2014

The Royal Danish Yacht Club (KDY) is pleased to announce the dates, the location, and a revised Notice of Race for the Royal Ocean Cup 2014. This offshore event featuring national teams will take place from August 27th to 30th 2014 and will be sailed on the waters outside Tuborg Harbor, a short distance north of the city of Copenhagen, Denmark.

Racing will be between three-boat teams, with the teams divided into two groups - either one representing national teams or one representing teams that are formed by boats from different countries. Each team will consist of one boat in Class 1 (<590 sec/mi GPH), one boat in Class 2 (575,0 to 609,0 sec/mi GPH) and one boat in Class 3 (600 to 699,9 sec/mi GPH). Scoring will be according to the ORCi rating system, and the race format will be a combination of windward-leeward races and an offshore race.

The winner of the Royal Ocean Cup will be the national team with the lowest combined score, while the mixed national teams will race for the Copenhagen Trophy.
